EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversations conducted on 3/11/05 and 3/14/05, Mr. Kestenbaum requested an extension of time for 3 MONTH(S) and authorized the Director to charge Deposit Account No. 11-0665 the required fee of \$285.00 for the third month, (two months already having been paid) for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Replace claim 18 by the following

-- 18. An apparatus that optimizes the development of woven fabrics, comprising:

a display device that displays the woven fabrics that are developed in the apparatus,

a structure input device that inputs freely definable fabric structures for woven fabrics,

at least one measuring device for measuring individual yarn diameters, and

a control and evaluation device that controls the woven fabrics and that also controls the at least one measuring device using a serial interface and at the same time the control and evaluation device receives data on a parallel interface between the measuring device and the control and evaluation device,

wherein the structure input device enables inputting and changing the woven fabrics, and

wherein an actual fabric is computed and presented on the basis of the individual yarn diameters and the freely definable structures for woven fabrics,

whereby a defined structure of the fabric is changeable to adapt and optimize the actual fabric to the measured individual yarn diameters. --.

Cancel claim 34.

In the specification and abstract:

Please enter the abstract and substitute specification submitted 5/8/03 (the clean copy) . Note the omission of the marked up copy of the substitute specification was corrected on 6/28/04 and was accompanied with a statement that no new matter was being added.

2. Remarks: the exhibit submitted 3/5/05 of a copy of a real whiteboard and the "Standard method for grading cotton yarns for appearance " has been considered by

Art Unit: 2125

the examiner, but does not overcome the prior art rejection set forth in the previous office action.

3. The following is an examiner's statement of reasons for allowance: the primary reason for the allowance of the claims is that in view of amended claims the prior art fails to teach or suggest in the claimed combination the use of a control and evaluation device that controls the woven fabrics and that also controls the at least one measuring device using a serial interface and at the same time the control and evaluation device receives data on a parallel interface between the measuring device and the control and evaluation device as set forth in the claims.

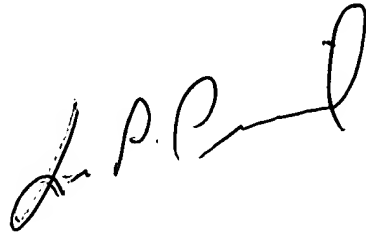

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven R Garland whose telephone number is 571-272-3741. The examiner can normally be reached on Monday-Thursday.
